

Aktivering af ny kandidathåndtering

15. juni 2023

Slut med den klassiske kandidathåndtering i EasyCruit

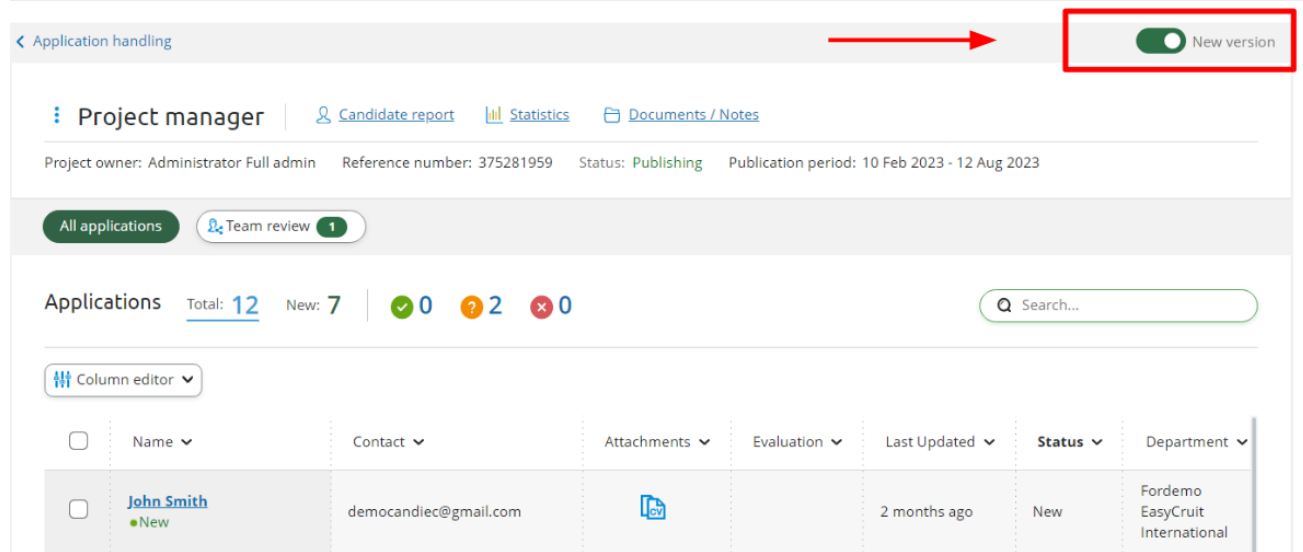

Vi har arbejdet på overgangen fra den klassiske platform til den nye visning af kandidathåndtering i et godt stykke tid.

I dag er det stadig muligt at skifte imellem de to versioner, men for at forbedre og simplificere brugeroplevelsen, vil den nye visning blive implementeret permanent fra d. 15. Juni 2023, og adgangen til den gamle visning fjernes ligeledes permanent.

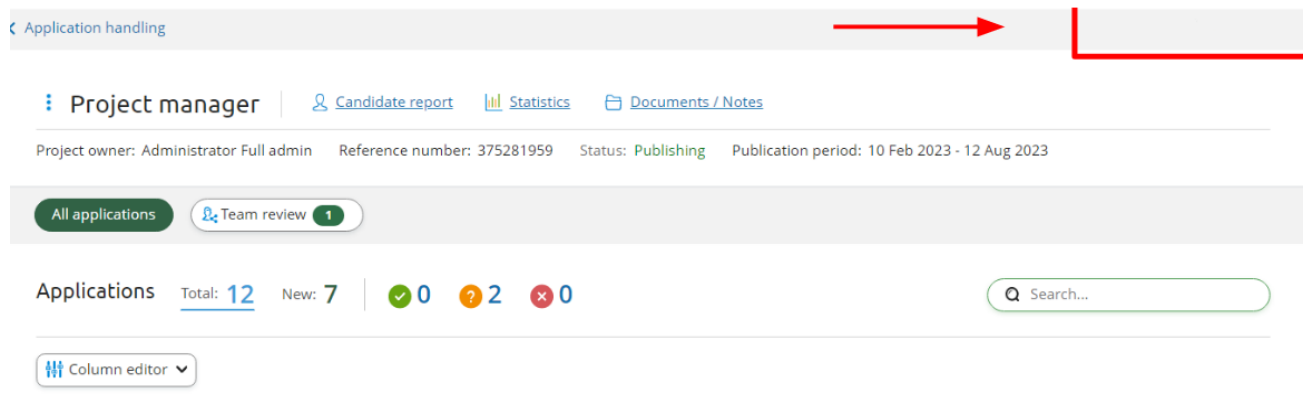

Alle funktionaliteter, der er nødvendige for at administrere kandidater, er tilgængelige i den nye platform. Nogle er blevet overført fra den gamle visning, og andre er nye og forbedret.

Hvad kommer der til at ske d. 15. Juni 2023?

Skifteknappen vil blive fjernet og den nye visning af kandidathåndtering bliver permanent.

The screenshot shows the 'Application handling' interface. At the top right, a red box highlights a toggle switch labeled 'New version', which is currently turned on. A red arrow points from the left towards this toggle. Below the toggle, the interface includes a navigation bar with 'Project manager', 'Candidate report', 'Statistics', and 'Documents / Notes'. The main content area shows 'All applications' and 'Team review' buttons, along with application statistics: Total: 12, New: 7, 0 green checkmarks, 2 yellow question marks, and 0 red crosses. A table below lists applications with columns for Name, Contact, Attachments, Evaluation, Last Updated, Status, and Department. The first entry is for 'John Smith' with contact 'democandiec@gmail.com' and status 'New'.

The screenshot shows the same 'Application handling' interface as above, but the 'New version' toggle switch has been removed. A red box highlights the empty space where the toggle was, and a red arrow points from the left towards this area. The rest of the interface, including the navigation bar, statistics, and application table, remains the same.

Den gamle version, vil ikke længere være tilgængelig

Den nye teamevaluering er allerede i dag måden, hvorpå kandidatinformation deles, og til at invitere både interne (medlemmer af jeres egen organisation, som har adgang til EasyCruit) og eksterne (medlemmer som ikke er en del af jeres organisation) til at evaluere kandidater på en sikker og brugervenlig måde. Det er designet med datasikkerhed for øje, så alle der skal evaluere vil være i stand til at tilgå platformen på en sikker måde ved at anvende to-trins-godkendelse (2FA) Visma Connect.

Den farvebaserede evaluering (2) (grøn/gul/rød) vil erstatte den forældede rangeringsfunktion 1/2/3 på den gamle platform (1)

Venligst være opmærksom på, at den værdi der tidligere er anvendt ved rangeringsfunktionen (1) ikke vil blive overført til den nye platform, så vi vil stærkt anbefale, at I bruger den nye og forbedret farvebaserede evaluering (2), hvis i ikke allerede anvender denne.

Hvad skal du gøre? (bruger)

1 - Anvende den nye version

2 - Anvende den nye og forbedret funktionalitet med de tre farvede evalueringknapper

3 - Anvende det nye teamevaluering til at dele kandidater til evaluering (hvis dette modul er tilkoblet jeres konto)
