Notice

25.07.2023

All information in this documentation may be changed without warning, and it does not represent an obligation on the part of the manufacturer.

All material in this documentation and the programs it concerns are protected by copyright legislation and the specially entered Agreement concerning usage rights and maintenance. All rights to this material are the property of Visma NextGen AB. Any copying or duplication of the material in this document, including but without limitations, text, screen appearance, icons, or methods, is prohibited.

As a part of its continuous development of the system, Visma NextGen AB may change the composition of packages, modules and functions. Visma NextGen AB waives any responsibility for any errors or omissions in the system, apart from what is clearly described in the current Agreement on usage rights and maintenance. Use of the system on other computers than the system it is licensed for is illegal and will be reported to the police and compensation will be claimed.

Introduction

This document includes information about new and changed features, fixed issues, and known issues and limitations in the latest version of [Visma.net](#) ERP.

We recommend that you read through the document so that you are familiar with the changes that have been made in this version before you start using it.

Please note that this document refers to the UK English version of [Visma.net](#) ERP.

SIGMA services

API

Release Notes.	Documentation	T	Ret versi
When using no filter for some endpoints, the response includes the entire collection of data instead of the first page with page size=max page size	Errors have been found at some endpoints. When no filter is used, the entire collection of data is in the response instead of returning first page with page size=max page size. This has caused performance issues and the problem has been fixed.		9.57.0

Mapping of Standard account codes for Denmark in Chart of accounts

The Chart of accounts has been updated with the Standard account codes in the the column Public code 1.

9.57.0

Existing companies will be updated with this code if they have not been changed by the user.

There is no lookup of valid codes so the user must update this according to www.Erhvervsstyrelsen.dk/standardkontoplan

Note! The Public code 1 is only used when creating the SAF-T report that will be available for Denmark in a later release.

Global search no longer searches in columns not visible in the grid in inquiry windows

When using global search from top right corner on any generic inquiry screen (list screens), the system will no longer search in columns that are not visible in the grid. This is done to improve the loading performance of the screens and to show only relevant documents as result in the grid.

9.57.0

New check box 'Show closed documents' in Sales invoices list window

A check box 'Show closed documents' has been added to the Sales invoices (AR3010PL) list window. You can select this check box to include documents with the Closed status in the table, and you can clear the check box to hide these documents from the table. By default, the check box is cleared.

9.57.0

The time it takes to load the window has shortened significantly by not showing the closed documents, depending on the amount of records in the system.

This check box is only available if the window has not been customised. If you have customised this window, you can add the check box manually in the generic inquiry as a new parameter and condition.

Documentation

Deadline

Planned removal of VNI authentication method	<p>We are planning to phase out VNI authentication method by the end of 2023. ISVs should register their (existing) integrations in the Developer Portal and use Connect authentication instead before the stated end date.</p> <p>Benefits of this change:</p> <ul style="list-style-type: none"> - One preferred method of authentication across Visma.net ERP portfolio - Better security using scopes - Let customer be more in control (customer grants access explicitly) <p>More information for ISVs on how to migrate existing integrations and/or setup new integrations can be found in the international developer community: https://community.visma.com/t5/News-in-Developers-Visma-net/Visma-net-ERP-APIs-are-now-available-for-Visma-Connect/ba-p/542148</p>	dec. 31, 2023
Planned removal of Sales Order API endpoints	<p>05.05.2023 - Due date is now changed. We plan to be functional complete by Q2-2024(30th of June 2024), thus new Due date being end of Q4-2024(31st of December 2024). If any change would occur for this, we will announce that as soon as possible,</p> <p>22.03.2023 - This is now in consideration. New dates for the deadline will come.</p> <p>A number of Sales Order API endpoints will be removed as a part of the transition to the next generation ERP.</p> <p>The following API endpoints will be removed:</p> <pre>GET /controller/api/v1/salesorder/{orderNbr} GET /controller/api/v1/salesorder/{orderType}/{orderNbr} GET /controller/api/v1/salesorder/{orderType}/{orderNbr}/rotrut GET /controller/api/v1/salesorder GET /controller/api/v1/salesorder/{orderType}/{orderNbr}/commissions POST /controller/api/v1/salesorder POST /controller/api/v1/salesorder/{saleOrderNumber}/action/cancelSalesOrder POST /controller/api/v1/salesorder/{salesOrderNumber}/action/reopenSalesOrder PUT /controller/api/v1/salesorder/{orderNbr} GET /controller/api/v1/salesorderbasic/{orderNbr} GET /controller/api/v1/salesorderbasic/{orderType}/{orderNbr} GET /controller/api/v1/salesorderbasic POST /controller/api/v1/salesorderbasic PUT /controller/api/v1/salesorderbasic/{orderNbr} POST /controller/api/v2/salesorderbasic POST /controller/api/v2/salesorder POST /controller/api/v2/salesorder/{saleOrderNumber}/action/cancelSalesOrder POST /controller/api/v2/salesorder/{salesOrderNumber}/action/reopenSalesOrder</pre> <p>All functionality currently missing in the new Sales Order Service API will be added before these endpoints are removed. The list of affected endpoints will also be extended, so pay attention to future updates.</p> <p>For more information on how to use the Visma.net ERP Sales Order Service, please visit: https://community.visma.com/t5/News-in-Developers-Visma-net/Getting-started-with-the-first-neXtGen-service-Visma-net-ERP/ba-p/401436</p> <p>Swagger for Visma.net.ERP.SalesOrder.API https://salesorder.visma.net/swagger/index.html</p>	dec. 31, 2024
