KB5022083 Change in how WPF-based applications render XPS documents

Release Date:

December 13, 2022

Notes:

- This article was revised on January 31, 2023, to add a resolution.
- This article was revised on January 9, 2023, to expand the symptom and add FAQ section.
- This article was revised on December 15, 2022, to add an additional workaround.

Lokaliser din maskintype i tabellen nede på siden. Tabellen inneholder mer enn det som er synlig i skjermbildet nedenfor og inneholder både Windows 10, Windows 11 og serveroperativsystemer:

Resolution

This issue was addressed in out-of-band updates released January 31, 2023. To get the standalone package for these out-of-band updates, search for the KB number in the [Microsoft Update Catalog](#). You can manually import these updates into Windows Server Update Services (WSUS) and Microsoft Endpoint Configuration Manager. For WSUS instructions, see [WSUS and the Catalog Site](#). For Configuration Manger instructions, see [Import updates from the Microsoft Update Catalog](#).

If you used any workaround or mitigations for this issue, they are no longer needed, and we recommend you remove them. To remove workaround review the workaround or alternative workaround which was applied for instructions.

Product Version	Update	
Windows 11, version 22H2		
.NET Framework 4.8.1	Catalog	5023327
Windows 11, version 21H2		
.NET Framework 4.8	Catalog	5023323
.NET Framework 4.8.1	Catalog	5023320

Klikk på oppføringen “Catalog” bak oppføringen som gjelder for din maskin. Du får da frem en oversikt over filoppdateringer. Maskinens operativsystemversjon avgjør hvilken som skal kjøres:

The screenshot shows a web browser displaying the Microsoft Update Catalog search results for KB5023322. The page title is "Microsoft Update-katalog" and the search term is "5023322". The results are displayed in a table with columns: Tittel, Produkter, Klassifisering, Sist oppdatert, Versjon, Størrelse, and Last ned. The table lists several updates for different Windows 10 versions and architectures (x64, ARM64, and LTSB). Each row includes a link to the update's details page.

Tittel	Produkter	Klassifisering	Sist oppdatert	Versjon	Størrelse	Last ned
2023-01 Update for .NET Framework 3.5 and 4.8 for Windows 10 Version 22H2 for x64 (KB5023322)	Windows 10, version 1903 and later	Updates	31.01.2023	I/T	7,5 MB	Last ned
2023-01 Update for .NET Framework 3.5 and 4.8 for Windows 10 Version 20H2 for x64 (KB5023322)	Windows 10, version 1903 and later	Updates	31.01.2023	I/T	7,5 MB	Last ned
2023-01 Update for .NET Framework 3.5 and 4.8 for Windows 10 Version 21H2 (KB5023322)	Windows 10, version 1903 and later, Windows 10 LTSB	Updates	31.01.2023	I/T	5,8 MB	Last ned
2023-01 Update for .NET Framework 3.5 and 4.8 for Windows 10 Version 21H2 for ARM64 (KB5023322)	Windows 10, version 1903 and later	Updates	31.01.2023	I/T	5,8 MB	Last ned
2023-01 Update for .NET Framework 3.5 and 4.8 for Windows 10 Version 20H2 (KB5023322)	Windows 10, version 1903 and later	Updates	31.01.2023	I/T	5,8 MB	Last ned
2023-01 Update for .NET Framework 3.5 and 4.8 for Windows 10 Version 20H2 for ARM64 (KB5023322)	Windows 10, version 1903 and later	Updates	31.01.2023	I/T	5,8 MB	Last ned
2023-01 Update for .NET Framework 3.5 and 4.8 for Windows 10 Version 21H2 for ARM64 (KB5023322)	Windows 10, version 1903 and later, Windows 10 LTSB	Updates	31.01.2023	I/T	5,8 MB	Last ned
2023-01 Update for .NET Framework 3.5 and 4.8 for Windows 10 Version 21H2 for x64 (KB5023322)	Windows 10, version 1903 and later, Windows 10 LTSB	Updates	31.01.2023	I/T	7,5 MB	Last ned

Last ned og kjør oppdateringen. Du må kjøre omstart av maskinen for å få effekt av endringen.
