As an employee you receive a period salary and a salary specification. Below you will find a description and explanation of what is presented on your specification. The specification used in this document is an example and is compiled at the beginning of January 2021 based on the information known at that time. Changes in legislation later this year are not incorporated. No rights can be derived from the content of this explanation.

- **Combined income levy**: indication **White** means that your income tax is calculated according the White tax rating table. This applies to your current wages.
- Annual pay spec. tax: on these wages you have paid income tax last year. These wages are used to determine a special rate tax
 - **Rate percentage:** this special rate tax is used to calculate income tax on fees such as holiday allowance, bonuses and overtime.
