2. Add missing fields in reportmodel (change 543578)	3
3. Missing fields added in reportmodel (change 656544)	4

This document describes the new functionality and improvements introduced by this release. Some of these changes have been inspired by messages and reports from customers. Where relevant, we have included a number in the section title to refer to the identification of the message (change .....) in question in our system.

## Resolved messages

### 1. Changes in datafeed configuration were not saved (change 580513)

#### Message

Customers wanted to change settings, like items and frequency of delivery in HR Datafeed, but the selected items were not saved.

#### Solution

A technical change is introduced. Changes are now saved correctly.

#### Your action

No action is needed,

### 2. Add missing fields in reportmodel (change 543578)

#### Message

Customers who were running standard report R-AI-10300-a Verlofkaarten saw different balance information than was presented in HR Core Business. However the balance in the report should match.

#### Solution

Caused by not taking discarded leave rights into account. The functionality is modified to discard leave rights that are already expired.

#### Your action

No action is needed.

### 3. Missing fields added in reportmodel (change 656544)

#### Message

Customers wanted to develop a report and add specific fields from entities *Overige Uren Bijzonder Tarief* and *Reiskosten*. However the system did not show all available fields.

It concerns the following fields:

- From (U) Afwijkende grondslag (Overige Uren Bt) to (Z5) Afwijkende grondslag (Overige Uren Bt)
- From (U) Afwijkende grondslag (Overige Uren Bt) Omschrijving to (Z5) Afwijkende grondslag (Overige Uren Bt) Omschrijving From (U) Uren (Overige Uren Bt) to (U) Uren (Overige Uren Bt)

1. Standard report R-ZK-10120 Ziektestatistiek periodiek per OE (change 480695)	3
2. Payroll elements rounded to 2 decimals (change 617409)	3

This document describes the new functionality and improvements introduced by this release. Some of these changes have been inspired by messages and reports from customers. Where relevant, we have included a number in the section title to refer to the identification of the message (change .....) in question in our system.

## Resolved messages

### 1. Standard report R-ZK-10120 *Ziektestatistiek periodiek per OE* (change 480695)

#### Message

For specific employees there is a double amount in the column *Duur beëindigde ziektegevallen*.

#### Solution

The calculation of the *Verzuimdagen* was wrong in the underlying procedures. The calculation has been modified and now provides the correct amount.

#### Your action

No action is needed.

### 2. Payroll elements rounded to 2 decimals (change 617409)

#### Message

When working with results for payroll elements in the reportbuilder entity *Fact payroll* (*arbeidscontract*) the values are shown with 2 decimals while there are values with more than 2 decimals.

#### Solution

We changed the software and now values are shown with more than 2 decimals.

#### Your action

No action is needed.
