Notice

15.6.2021

All information in this documentation may be changed without warning, and it does not represent an obligation on the part of the manufacturer.

All material in this documentation and the programs it concerns are protected by copyright legislation and the specially entered Agreement concerning usage rights and maintenance. All rights to this material are the property of Visma Software International AS. Any copying or duplication of the material in this document, including but without limitations, text, screen appearance, icons, or methods, is prohibited.

As a part of its continuous development of the system, Visma Software International AS may change the composition of packages, modules and functions. Visma Software International AS waives any responsibility for any errors or omissions in the system, apart from what is clearly described in the current Agreement on usage rights and maintenance. Use of the system on other computers than the system it is licensed for is illegal and will be reported to the police and compensation will be claimed.

Introduction

This document includes information about new and changed features, fixed issues, and known issues and limitations in the latest version of Visma.net ERP.

We recommend that you read through the document so that you are familiar with the changes that have been made in this version before you start using it.

Please note that this document refers to the UK English version of Visma.net ERP.

O2C

Release Notes.	Documentation	T
Description of VAT code visible on invoice lines	You can now see the description of the VAT code in the Sales invoices (AR301000) and Customer invoice (SO303000) windows, on the VAT details tab so that it's easier to understand which VAT code is selected on the invoice lines.	
Wrong dunning letter fee for Norway in template	Earlier, the maximum dunning letter fee set as default in the Customer ledger preferences (AR101000) was too high. It has now been corrected to meet the rates set by the government.

Accounting Modules

Release Notes.	Documentation	T
Side panel functionality available for seeing relevant information without navigating between screens	The Side panel functionality is now available and accountants can use it to see relevant information on customers, items, suppliers etc. without having to navigate to different screens. For the moment this functionality will be activated for specific customers only.
