Quantity:  (default one (1))

If possible to use quantity.  
Since some discount are depended on quantity

Discount Breakpoints			
Break Quantity	Discount Percent	Effective Date	Pending Break Quantity
5,00	7,50	2015-04-01	0,00
10,00	10,00	2015-04-01	0,00

**Unit Price**

**Base on V.net price hierarchy**

- Promotional customer-specific price
- Customer-specific price
- Promotional price specific to the customer price class
- Price for the customer price class
- Promotional base price
- Base price
- Default price

**Regarding Unit Cost and Margin**

Some companies may not want to display margin internally to their staff. So this may be an option OR should not be included in the first version. It can included be as a separate screen with higher user rights
